

Cranedale Small Groups Week

26th – 29th November 2024

Got an A level class of **eight or less** students?

Book them into our 'Small Groups Week' where we'll teach your students alongside other schools to ensure they get the benefits of a full residential fieldwork experience. We'll provide one free adult place per group and you can bring an additional adult for 50% of the student price.

Each day we'll run through an investigation on a different geographical topic so that they leave the trip with a toolkit of ideas and inspiration, ready to make plans for their own independent NEA investigations closer to home.

Itinerary

Tues 26th Nov: Microclimates in Kirby Grindalythe.

Wed 27th Nov: Place Studies in Scarborough and an introduction to ArcGIS.

Thurs 28th Nov: Water and Carbon Cycles in Dalby Forest and a Statistics Workshop.

Fri 29th Nov: Coastal Management at Hornsea on the Holderness Coast.
